

Index of Issues: January, pp. 1–224; February, pp. 225–412; March, pp. 413–626; April, pp. 627–812; May, pp. 913–1000; June, 1001–1246.

SUBJECT INDEX TO VOLUME 78

Entries from JOURNAL departments are identified as follows: Book Reviews—(BR); Case Reports—(CR); Clinical Investigations—(CI); Correspondence—(CO); Editorial Views—(EV); Highlights—(HI); Laboratory Reports—(LR); Review Article—(RA); Medical Intelligence—(MI); Original Article—(OA); Practice Guidelines—(PG); Review Article—(RA); Special Article—(SA); Reports of Scientific Meetings—(SM).

A

Abdominal surgery, See under Surgery

Abscess, See under Complications

Accidents, See under Complications

Acetaminophen, See under Analgesics, nonsteroidal antiinflammatory drugs

Acetylcholine, See under Parasympathetic nervous system

Acetylcholine receptors, See under Receptors

Acid aspiration, See under Complications

Acid-base equilibrium

acidosis

myocardial hypercarbic

during deliberate hypoventilation in patient with air trapping during lung transplantation (CR) [Quinlan & Buffington], 1177

reduces cardiac resuscitability (LI) [Maldonado, Weil, Tang, Bisera, Gazmuri, Johnson & D'Alessio], 343

Acid-base status

following anesthesia, *See under Anesthesia*

Acidosis, See under Acid-base equilibrium

α_2 -Adrenergic agonists, See under Sympathetic nervous system

α_2 -Adrenergic receptors, See under Receptors

α -Adrenergic agents, See under Sympathetic nervous system

β -Adrenergic blockade, See under Sympathetic nervous system

Adrenergic receptors, See under Sympathetic nervous system

Age factors

gestational

and risk for postanesthetic apnea (LI) [Malviya, Swartz & Lerman], 1076

neonate

and risk for postanesthetic apnea (LI) [Malviya, Swartz & Lerman], 1076

postconceptual

and risk for postanesthetic apnea (LI) [Malviya, Swartz & Lerman], 1076

preterm

and risk for postanesthetic apnea (LI) [Malviya, Swartz & Lerman], 1076

α_2 -Agonists, See under Sympathetic nervous system

Air trapping, See under Complications

Airway

bronchodilation

anesthetic-induced, assessed by high-resolution computed tomography (LI) [Brown, Mitzner, Zerhouni & Hirshman], 295

constriction

histamine

and responses of airways to halothane and isoflurane (CI) [Brown, Zerhouni & Hirshman], 1096

difficult

practice guidelines for management of (PG) [American Society of Anesthesiologists], 597

use of neuromuscular relaxants in child with (CO) [Mayhew], 797

use of neuromuscular relaxants in child with (CO) [Schreiner], 798

pressure

effect of lung volume on lung resistance and elastance in awake subjects measured during sinusoidal forcing (LI) [Barnas, Sprung, Craft, Williams, Ryder, Yun & Mackenzie], 1082

trachea

direct actions of volatile anesthetics on, factors influencing (CI) [Yamamoto, Morimoto, Warner, Rehder & Jones], 1102

effects of lidocaine on intracellular Ca^{2+} and tension in (LI) [Kai, Nishimura, Kobayashi, Takahashi, Yoshitake & Kanai], 954

Alcohol

cycloalkane-methanol

anesthetic cutoff in (LI) [Raines, Korten, Hill & Miller], 918

Alfentanil, See under Analgesics, opioid; Anesthetics, intravenous; Pharmacodynamics

Allergy

anaphylaxis

protamine-specific IgG antibody associated with, following vasectomy (CR) [Adourian, Shampaine, Hirshman, Fuchs & Adkinson], 368

topical bovine thrombin (CR) [Rothenberg & Moy], 779

drug

atracurium is contraindicated in patients with (CO) [Doenicke], 607

atracurium is contraindicated in patients with (CO) [Laxenaire, Moncret-Vautin & Guéant], 607

Alligator clip, See under Equipment

Alpha adrenergic agonists, See under Sympathetic nervous system

Ambulatory surgery, See under Surgery

American Academy of Pediatrics, See under Organizations

American Society of Anesthesiologists (ASA), See under History; Organizations

American Society of Anesthesiologists, See under Organizations

Amnesia, See under Memory

Amrinone, See under Pharmacology

Analgesia**epidural**

bupivacaine

for pain control for postthoracotomy patients (CR) [Burgess, Anderson, Colonna, Sborov & Cavanaugh], 365

fentanyl

for pain control for postthoracotomy patients (CR) [Burgess, Anderson, Colonna, Sborov & Cavanaugh], 365

obstetric

epidural sufentanil and bupivacaine for, and Doppler velocimetry (CI) [Alahuhta, Räsänen, Jouppila, Jouppila & Hollmén], 231

opioid

morphine

effects of, on hyperesthesia evoked by carageenan injection in rat paw (LI) [Yamamoto, Shimoyama & Mizuguchi], 124

postoperative

ketorolac for, in ambulatory surgery patients (CI) [Wong, Carpenter, Kopacz, Fragen, Thompson, Mancatis & Bynum], 6

preemptive

or anoci-association (CO) [Katz], 220

or anoci-association (CO) [Smiler], 219

Analgesics**control system**

for controlled substance accounting in operating room (LI) [Schmidt & Schlesinger], 184

epidural

clonidine

depresses sympathetic nerve activity in humans by supraspinal mechanism (LI) [Kirnö, Lundin & Elam], 1021

fentanyl

for postcesarean delivery patient-controlled analgesia (CI) [Cohen, Amar, Pantuck, Pantuck, Goodman, Widroff, Kanas & Brady], 486

versus intravenous administration of (CO) [Grant, Harper & Parsons], 992

versus intravenous administration of (CO) [Sandler & Katz], 992

sufentanil

for labor analgesia and Doppler velocimetry of umbilical and uterine arteries (CI) [Alahuhta, Räsänen, Jouppila, Jouppila & Hollmén], 231

for postcesarean delivery patient-controlled analgesia (CI) [Cohen, Amar, Pantuck, Pantuck, Goodman, Widroff, Kanas & Brady], 486

intravenous

fentanyl

acute right ventricular failure after airway instrumentation: effect of dose of (CR) [Hickey & Retzack], 372

ketorolac

as adjuvant to fentanyl patient-controlled epidural analgesia (HI) (CI) [Grass, Sakima, Valley, Fischer, Jackson, Walsh & Bourke], 642

narcotic

fentanyl

effects of, on middle cerebral artery blood flow velocity (CI) [Trindle, Dodson & Rampil], 454

increased intracranial pressure in head trauma patients (CO) [Sperry], 621

increased intracranial pressure in head trauma patients given (CO) [Kofke & Tempelhoff], 620

increases intracranial pressure in head trauma patients (CO) [Sperry], 622

increases intracranial pressure in head trauma patients (CO) [Weinstabl & Spiss], 622

sufentanil

effects of, on middle cerebral artery blood flow velocity (CI) [Trindle, Dodson & Rampil], 454

nonsteroidal antiinflammatory drugs

acetaminophen

in study of ketorolac for ambulatory surgery (CI) [Wong, Carpenter, Kopacz, Fragen, Thompson, Mancatis & Bynum], 6

ketorolac

for ambulatory surgery patients (CI) [Wong, Carpenter, Kopacz, Fragen, Thompson, Mancatis & Bynum], 6

opioid

alfentanil

flux of, through rabbit arteries *in vivo* (CI) [Bernards], 1126

in study of influence of cryogenic brain injury on nociception (LI) [Archer & Samanani], 937

as supplement to propofol or nitrous oxide for lower abdominal surgery in female patients (LI) [Vuyk, Lim, Engbers, Burm, Vletter & Bovill], 1036

codeine

in study of ketorolac for ambulatory surgery (CI) [Wong, Carpenter, Kopacz, Fragen, Thompson, Mancatis & Bynum], 6

fentanyl

in study of ketorolac for ambulatory surgery (CI) [Wong, Carpenter, Kopacz, Fragen, Thompson, Mancatis & Bynum], 6

flux of, through rabbit arteries *in vivo* (CI) [Bernards], 1126

isoflurane minimum alveolar concentration reduction by (CI) [McEwan, Smith, Dyar, Goodman, Smith & Glass], 864

for patient-controlled epidural analgesia, ketorolac as adjuvant to (HI) (CI) [Grass, Sakima, Valley, Fischer, Jackson, Walsh & Bourke], 642

plasma concentration of, with 70% nitrous oxide, to prevent movement at skin incision (HI) (CI) [Glass, Doherty, Jacobs, Goodman & Smith], 842

preoperative epidural, neuroplasticity, and postoperative pain (CO) [Dahl & Kehlet], 801

preoperative epidural, neuroplasticity, and postoperative pain (CO) [Katz, Kavanaugh & Sandler], 802

preoperative, neuroplasticity and postoperative pain (CO) [Dahl & Kehlet], 989

preoperative, neuroplasticity and postoperative pain (CO) [Katz, Kavanaugh & Sandler], 990

in study of influence of cryogenic brain injury on nociception (LI) [Archer & Samanani], 937

transdermal, for cancer pain (CI) [Portenoy, Southam, Gupta, Lapin, Layman, Inturrisi & Foley], 36

morphine

flux of, through rabbit arteries *in vivo* (CI) [Bernards], 1126

but not inhalation anesthesia, blocks post-injury facilitation (LI) [Abram & Yaksh], 713

interaction with pentobarbital (LI) [Kissin, Stanski, Brown & Bradley], 744

sufentanil

intrathecal, for labor analgesia (HI) (CI) [Camann, Minzter, Denney & Datta], 870

Anaphylaxis, See under Allergy**Anesthesia****accidents**

and pulse oximetry as standard practice (EV) [Eichhorn], 423

cardiac

phenylephrine in, and left ventricular function in coronary artery disease or valvular aortic stenosis (CI) [Goertz, Lindner, Seefelder, Schirmer, Beyer & Georgieff], 834
and pressure rate quotient evaluation by echocardiography (CI) [Harris, Gordon, Urban, O'Connor & Barash], 242

complications

and patient improvement with use of pulse oximetry randomized evaluation in 20,802 patients (CI) [Moller, Pedersen, Rasmussen, Jensen, Pedersen, Ravlo, Rasmussen, Espersen, Johannessen, Cooper, Gravenstein, Chraemmer-Jørgensen, Wiberg-Jørgensen, Djernes, Heslet & Johansen], 436

cost factors

are new drugs cost-effective for patients undergoing ambulatory surgery? (EV) [White & Watcha], 2

depth

pentobarbital-morphine anesthetic interaction and (LI) [Kissin, Stanski, Brown & Bradley], 744

duration

tolerance to isoflurane during prolonged administration (CR) [Arnold, Truog & Molengraft], 985

general

indirect memory during (CI) [Westmoreland, Sebel, Winograd & Goldman], 237

mechanisms

gamma-aminobutyric acid and (RA) [Tanelian, Kosek, Mody & MacIver], 757
study of, concluding that anesthetic potency is independent of forebrain structures (LI) [Rampil, Mason & Singh], 707

morbidity

and pulse oximetry as standard practice (EV) [Eichhorn], 423

mortality

and pulse oximetry as standard practice (EV) [Eichhorn], 423

neuroanesthesia

do barbiturates really protect the brain during? (CO) [Drummond], 611
do barbiturates really protect the brain during? (CO) [Michenfelder], 613

neurosurgical

effect of alfentanil on cerebral blood flow velocity during (CI) [Mayberg, Lam, Eng, Laohaprasit & Winn], 288
prospective, comparative trial of three anesthetics in, for elective supratentorial craniotomy (CI) [Todd, Warner, Sokoll, Maktabi, Hindman, Scamman & Kirschner], 1005

obstetric**cesarean section**

electrocardiogram changes during (CO) [Kleinman], 1000
electrocardiogram changes during (CO) [Mathew & Fleisher], 1000

fetal

acid-base status following propofol and thiopental (LI) [Alon, Ball, Gillie, Parer, Rosen & Shnider], 562
cardiovascular effects of propofol and thiopental (LI) [Alon, Ball, Gillie, Parer, Rosen & Shnider], 562

maternal

acid-base status following propofol and thiopental (LI) [Alon, Ball, Gillie, Parer, Rosen & Shnider], 562
cardiovascular effects of propofol and thiopental (LI) [Alon, Ball, Gillie, Parer, Rosen & Shnider], 562
intrathecal sufentanil for labor analgesia (HI) (CI) [Camann, Minzter, Denney & Datta], 870
practice of, overcoming language barrier in (CO) [Weeks], 407

onset

of neuromuscular blocking agents, potency *versus* (CO) [Donati], 796
of neuromuscular blocking agents, potency *versus* (CO) [Gyermek], 795

outcome

and pulse oximetry as standard practice (EV) [Eichhorn], 423

pediatric**neonatal**

and postanesthetic apnea following surgery in preterm infants younger than 60 weeks postconceptual age (LI) [Malviya, Swartz & Lerman], 1076

premedication

and adult, comparison of closed malpractice claims in (CI) [Murray, Geiduschek, Caplan, Posner, Gild & Cheney], 461
central venous cannulation, acute arterial insufficiency of upper extremity after (CR) [Breznick & Ness], 594
for children with Freeman-Sheldon syndrome (CO) [Jones & Dolcourt], 408
for children with Freeman-Sheldon syndrome (CO) [Mayhew], 408
digitally assisted tracheal intubation for, in Pierre Robin syndrome (CR) [Sutera & Gordon], 983
fentanyl dose effect on right ventricular failure after response to airway instrumentation (CR) [Hickey & Retzack], 372
midazolam enhances anterograde amnesia in (CI) [Twersky, Hartung, Berger, McClain & Beaton], 51
neurosurgical patients, new method of endotracheal tube fixation for (CO) [Horn & Stevenson], 618
parents in operating room? (CO) [Bowie], 1192
prevention of gastric insufflation during, effect of cricoid pressure on (CI) [Moynihan, Brock-Utne, Archer, Feld & Kreitzman], 652
simple alternative precordial stethoscope (CO) [Duntzman & Hirshberg], 1189
transmucosal administration of midazolam for (CI) [Karl, Rosenberger, Larach & Ruffie], 885
use of dental mirror as aid to tracheal intubation for (CO) [Patil, Sopchak & Thomas], 619
use of neuromuscular relaxants in, in abnormal airway (CO) [Mayhew], 797
use of neuromuscular relaxants in, in abnormal airway (CO) [Schreiner], 798

thoracic

for thoracoscopic laser ablation of bullous emphysema (CI) [Barker, Clarke, Trivedi, Hyatt, Fynes & Roessler], 44

Anesthesia leak, See under Complications**Anesthesia machine, See under Equipment****Anesthesia research, See under Research**

Anesthesiologists**drug abuse**

- new duty for, to help dying die? (EV) [Jonsen], 225
- pain, euthanasia and (SA) [Truog & Berde], 353
- reliable accounting system for controlled substances and (LI) [Schmidt & Schlesinger], 184

Anesthetic cutoff, See under Potency, anesthetic**Anesthetic potency, See under Potency****Anesthetic techniques****blind nasotracheal intubation**

- failure of capnography to properly assess endotracheal tube location in (CR) [Deluty & Turndorf], 783

central venous cannulation

- acute arterial insufficiency of upper extremity after (CR) [Brennick & Ness], 594

cervical plexus block

- neurologic changes during carotid endarterectomy under, and postoperative stroke (CI) [Davies, Mooney, Scott, Silbert & Cook], 829

combined spinal-epidural anesthesia

- using needle-through-needle technique (CO) [Joshi & McCarroll], 406

computer-assisted continuous infusion

- of fentanyl, with 70% nitrous oxide, to prevent movement at skin incision (CI) [Glass, Doherty, Jacobs, Goodman & Smith], 842

computer-controlled drug administration

- of intravenous dexmedetomidine, in adult human volunteers (CI) [Dyck, Maze, Haack, Azarnoff, Vuoriolehto & Shafer], 821

computer-controlled infusion

- of alfentanil to supplement propofol or nitrous oxide for lower abdominal surgery (LI) [Vuyk, Lim, Engbers, Burm, Vletter & Bovill], 1036

continuous infusion

- for maintaining constant levels of intravenous drugs (LI) [Bailey], 116

cricoid pressure

- effect of, on prevention of gastric insufflation in infants and children (CI) [Moynihan, Brock-Utne, Archer, Feld & Kreitzman], 652

epidural**cervical**

- can relieve postoperative intractable hiccups (CR) [Sato, Asakura, Endo & Naito], 1184

fentanyl in

- preoperative, neuroplasticity and postoperative pain (CO) [Dahl & Kehlet], 989
- preoperative, neuroplasticity and postoperative pain (CO) [Katz, Kavanagh & Sandler], 990
- versus intravenous administration of (CO) [Grant, Harper & Parsons], 992
- versus intravenous administration of (CO) [Sandler & Katz], 992

patient-controlled

- fentanyl in, ketorolac as adjuvant to (HI) (CI) [Grass, Sakima, Valley, Fischer, Jackson, Walsh & Bourke], 642

thoracic

- with chloroprocaine, back pain after (CI) [Stevens, Urmey, Urquhart & Kao], 492

- clonidine for, depresses sympathetic nerve activity in humans by supraspinal mechanism (LI) [Kirnő, Lundin & Elam], 1021

epidural hematoma associated with: complications of anticoagulant therapy (CO) [Vasdev & Leicht], 1188**inflammatory cutaneous reactions to catheters used in (CR) [Mather, Ready & Newman], 200****overcoming language barrier in obstetric anesthesia practice (CO) [Weeks], 407****physiologic responses to hyperthermia during, in women (LI) [Lopez, Ozaki, Sessler & Valdes], 1046****for postcesarean delivery patient-controlled analgesia (CI) [Cohen, Amar, Pantuck, Pantuck, Goodman, Widroff, Kanas & Brady], 486****and postoperative pulmonary complications (HI) (CI) [Jayr, Thomas, Rey, Farhat, Lasser & Bourgain], 666****preoperative, fentanyl in, neuroplasticity, and postoperative pain (CO) [Dahl & Kehlet], 801****preoperative, fentanyl in, neuroplasticity, and postoperative pain (CO) [Katz, Kavanagh & Sandler], 802****response to surgical stress following (CO) [Kehlet], 790****response to surgical stress following (CO) [Naito & Tamai], 791****response to surgical stress following (CO) [Walker & Herschman], 790****were they subdural injections? (CO) [Chadwick, Maravilla & Cohen], 606****were they subdural injections? (CO) [Hogan & Mark], 605****and uteroplacental blood flow velocity (CI) [Alahuhta, Räsänen, Jouppila, Jouppila & Hollmén], 231****fiberoptic bronchoscopy**

- safe placement of nasogastric tube for, in basal skull fracture (CO) [Lipov & Sosis], 989

fiberoptic tracheal intubation

- ventilation *via* mouth mask facilitates, in anesthetized patients (CO) [Nagaro, Hamami, Takasaki & Arai], 603

inhalation

- in comparative trial of three anesthetics for elective supratentorial craniotomy (CI) [Todd, Warner, Sokoll, Maktabi, Hindman, Scamman & Kirschner], 1005

internal jugular vein cannulation

- newly designed curved needle for (CO) [Oshima, Ishizu & Urabe], 792

intravenous**total**

- in comparative trial of three anesthetics for elective supratentorial craniotomy (CI) [Todd, Warner, Sokoll, Maktabi, Hindman, Scamman & Kirschner], 1005

lumbar**sympathetic block**

- motor paralysis of lower extremities following (CR) [Parris & Kirschner], 981
- postdural puncture headache after fluoroscopically guided (CR) [Schmidt & Gibbons], 198

nasal tracheal intubation

- new method of tube fixation for pediatric neurosurgical patients (CO) [Horn & Stevenson], 618

peripheral nerve block

- right-angled alligator clip for use in (CO) [Lee], 1192

phrenic nerve block

can relieve postoperative intractable hiccups (CR) [Sato, Asakura, Endo & Naito], 1184

regional

lateral antebrachial cutaneous nerve block
for arteriovenous fistula (CO) [Yablok], 995

nerve block

dorsal scapular; description of technique and report of case (CR) [Haim & Urban], 361

sympathetic blockade

postdural puncture headache after fluoroscopically guided (CR) [Schmidt & Gibbons], 198

spinal**continuous**

cauda equina syndrome after, magnetic resonance imaging documenting (CR) [Mangar, Gonzalez & Linden], 785

cauda equina syndrome and (CO) [Drasner], 215

cauda equina syndrome and (CO) [Peyton], 214

for deaf-mute patient undergoing prostatic surgery (CR) [Shulman & Polepalle], 590

dislocation in patient with prosthetic hip during (CO) [Samuels & Brent], 398

hypotension and (CO) [Carpenter & Caplan], 402

hypotension and (CO) [Szmuk, Ezri & Priscu], 402

for hypotension induced by clonidine, and counteracted by neostigmine (LI) [Williams, Tong & Eisenach], 301

intrathecal sufentanil for labor analgesia (HI) (CI) [Camann, Mintzer, Denney & Datta], 870

and ketamine and neurotoxicity in the rabbit (LI) [Malinovsky, Lepage, Cozian, Mussini, Pinaudt & Souron], 109

Streptococcus mitis-induced bacteremia and meningitis after (CR) [Blackmore, Morley & Gordon], 592

total intravenous anesthesia

prevention of awareness during (CO) [Glass], 399

tracheal

use of dental mirror as aid to, in infant (CO) [Patil, Sopchak & Thomas], 619

tracheal intubation**digitally assisted**

in child with abnormal anatomy, use of neuromuscular relaxants in (CO) [Mayhew], 797

in child with abnormal anatomy, use of neuromuscular relaxants in (CO) [Schreiner], 798

laryngeal mask airway as aid to, in patients at risk of aspiration (CO) [Asai], 1198

laryngeal mask airway as aid to, in patients at risk of aspiration (CO) [Brimacombe & Berry], 1197

in neonate with Pierre Robin syndrome (CR) [Sutera & Gordon], 983

neurologic deterioration associated with, in cervical spine-injured patient (CR) [Hastings & Kelley], 580

and required sample size for randomized clinical trials (CO) [Darmon], 610

and required sample size for randomized clinical trials (CO) [Lewis], 609

transdermal

for cancer pain (CI) [Portenoy, Southam, Gupta, Lapin, Layman, Inturrisi & Foley], 36

ultrasound to enhance (LI) [Tachibana & Tachibana], 1091

transmucosal drug administration

of midazolam for premedication of pediatric patients (CI) [Karl, Rosenberger, Larach & Ruffel], 885

ultrasound

to enhance local anesthetic effect of topically applied lidocaine (LI) [Tachibana & Tachibana], 1091

Anesthetics**gases****nitric oxide**

inhaled (LI) [Rich, Murphy, Roos & Johns], 1028

nitrous oxide

does not block post-injury facilitation, but morphine does (LI) [Abram & Yaksh], 713

in comparative trial of three anesthetics for elective supratentorial craniotomy (CI) [Todd, Warner, Sokoll, Maktabi, Hindman, Scamman & Kirschner], 1005

and fentanyl, plasma concentration of, to prevent movement at skin incision (HI) (CI) [Glass, Doherty, Jacobs, Goodman & Smith], 842

it's enough to make you vomit (CO) [Hartung], 403

it's enough to make you vomit (CO) [Watcha & White], 405

laparoscopy explosion hazards with (CI) [Neuman, Sidebotham, Negoianu, Bernstein, Kopman, Hicks, West & Harding], 875

obese patients receiving, propofol for maintenance of anesthesia in (CI) [Servin, Farinotti, Haber & Desmonts], 657

supplemented by alfentanil, for lower abdominal surgery in female patients (LI) [Vuyk, Lim, Engbers, Burm, Vletter & Bovill], 1036

intravenous**alfentanil**

effect of, on cerebral blood flow velocity, during neurosurgical procedures (CI) [Mayberg, Lam, Eng, Laohaprasit & Winn], 288

as supplement to propofol or nitrous oxide for lower abdominal surgery in female patients (LI) [Vuyk, Lim, Engbers, Burm, Vletter & Bovill], 1036

diazepam

effects of, on intercellular communications mediated by gap junctions between astrocytes in primary care (LI) [Mantz, Cordier & Giaume], 892

droperidol

inhibits coronary thrombosis (LI) [Bertha, Sill, Berger, Folts & Milde], 733

and menstruation and postoperative vomiting (CI) [Beattie, Lindblad, Buckley & Forrest], 272

etomidate

effects of, on diseased myocardium (LI) [Riou, Lecarpentier & Viars], 83

effects of, on intercellular communications mediated by gap junctions between astrocytes in primary care (LI) [Mantz, Cordier & Giaume], 892

fentanyl

in assessment of sympathetic activity and glucose-related ischemic injury (CI) [Shu, Hoffman, Thomas & Albrecht], 1120

in comparative trial of three anesthetics for elective supratentorial craniotomy (CI) [Todd, Warner, Sokoll, Maktabi, Hindman, Scamman & Kirschner], 1005

effect of, on pulmonary uptake of propofol in cats (LI) [Matot, Neely, Katz & Neufeld], 1157

- plasma concentration of, with 70% nitrous oxide, to prevent movement at skin incision (HI) (CI) [Glass, Doherty, Jacobs, Goodman & Smith], 842
- rigidity and unconsciousness induced by, in human volunteers (CI) [Streisand, Bailey, LeMaire, Ashburn, Tarver, Varvel & Stanley], 629
- ketamine**
- cardiovascular effects of, mediated by N-methyl-D-aspartate receptor in nucleus tractus solitarius (LI) [Ogawa, Uremura, Kataoka, Oi & Inokuchi], 163
- effects of, on intercellular communications mediated by gap junctions between astrocytes in primary care (LI) [Mantz, Cordier & Giaume], 892
- is it responsible for neurotoxicity in rabbit? (LI) [Malinovsky, Lepage, Cozian, Mussini, Pinaud & Souron], 109
- and wide dynamic range neurons (LI) [Nagasaka, Nagasaka, Sato, Matsumoto, Matsumoto & Hori], 722
- midazolam**
- effect of, on epinephrine arrhythmogenicity in dogs anesthetized with halothane (LI) [Court, Dodman, Greenblatt, Agarwal & Kumar], 155
- hypoxic response after, during isohypercarbia (CI) [Blouin, Conard, Perreault & Gross], 635
- morphine**
- effects of, on intercellular communications mediated by gap junctions between astrocytes in primary care (LI) [Mantz, Cordier & Giaume], 892
- opioid**
- effect of, on cerebral blood flow velocity, during neurosurgical procedures (CI) [Mayberg, Lam, Eng, Laohaprasit & Winn], 288
- propofol**
- in comparative trial of three anesthetics for elective supratentorial craniotomy (CI) [Todd, Warner, Sokoll, Maktabi, Hindman, Scamman & Kirschner], 1005
- effects of, on intercellular communications mediated by gap junctions between astrocytes in primary care (LI) [Mantz, Cordier & Giaume], 892
- low-dose, lidocaine toxicity treated with (CR) [Bishop & Johnstone], 788
- maternal and fetal cardiovascular effects of, in pregnant ewe (LI) [Alon, Ball, Gillie, Parer, Rosen & Shnider], 562
- modulation of GABA_A receptor complex by (RA) [Tanelian, Kosek, Mody & MacIver], 757
- negative inotropic effects of, as evaluated by regional preload recruitable stroke work (LI) [Pagel & Warltier], 100
- open ampules, easy, safe, and clean procedure to (CO) [Chaudhari], 395
- pharmacodynamics of and free drug concentration (CO) [Gin], 604
- pharmacodynamics of and free drug concentration (CO) [Vuyk, Engbers, Lemmens, Burm, Vletter, Gladines & Bovill], 604
- pharmacokinetics of, in obese patients (CI) [Servin, Farinotti, Haberer & Desmonts], 657
- prevention of awareness during total anesthesia with (CO) [Glass], 399
- pulmonary uptake of, in cats (LI) [Matot, Neely, Katz & Neufeld], 1157
- in study of atracurium in patients with known drug allergy (CO) [Doenicke], 607
- in study of atracurium in patients with known drug allergy (CO) [Laxenaire, Moneret-Vautin & Guéant], 607
- supplemented by alfentanil, for lower abdominal surgery in female patients (LI) [Vuyk, Lim, Engbers, Burm, Vletter & Bovill], 1036
- and thiopental, *in vitro*, dose-response determinations for, concentration ranges in (CO) [Bridges, Introna & Pruett], 1187
- steroids**
- modulation of GABA_A receptor complex by (RA) [Tanelian, Kosek, Mody & MacIver], 757
- sufentanil**
- pharmacokinetics (CI) [Bartkowski, Goldberg, Huffnagle & Epstein], 260
- risk of ischemia in patients receiving, sample size and clinical significance (CO) [Biddle], 396
- risk of ischemia in patients receiving, sample size and clinical significance (CO) [Helman, Leung, Bellows & Mangano], 397
- thiopental**
- effects of, on intercellular communications mediated by gap junctions between astrocytes in primary care (LI) [Mantz, Cordier & Giaume], 892
- maternal and fetal cardiovascular effects of, in pregnant ewe (LI) [Alon, Ball, Gillie, Parer, Rosen & Shnider], 562
- and propofol, *in vitro*, dose-response determinations for, concentration ranges in (CO) [Bridges, Introna & Pruett], 1187
- local**
- bupivacaine**
- effects of thoracic extradural block using, on diaphragmatic electrical activity (CI) [Pansard, Mankikian, Bertrand, Kieffer, Ciergue & Viars], 63
- inhibitory effects of, on adrenergic neuroeffector junctions (LI) [Szocik, Gardner & Webb], 911
- for labor analgesia and Doppler velocimetry of umbilical and uterine arteries (CI) [Alahuhta, Räsänen, Jouppila, Jouppila & Hollmén], 231
- in study of neurologic changes during carotid endarterectomy under cervical block (CI) [Davies, Mooney, Scott, Silbert & Cook], 829
- toxicity to, effect of intracerebroventricular picrotoxin and muscimol on (LI) [Bernards & Artru], 902
- chloroprocaine**
- back pain after epidural anesthesia with (CI) [Stevens, Urme, Urquhart & Kao], 492
- cocaine**
- to quantify non-specific binding/uptake in assessment of anesthetic inhibition of dopamine transport (LI) [El-Maghrabi & Eckenhoff], 750
- lidocaine**
- effects on intracellular Ca²⁺ and tension in airway smooth muscle (LI) [Kai, Nishimura, Kobayashi, Takahashi, Yoshitake & Kanaide], 954
- inhibitory effects of, on adrenergic neuroeffector junctions (LI) [Szocik, Gardner & Webb], 911
- in study of back pain after epidural anesthesia (CI) [Stevens, Urme, Urquhart & Kao], 492

- in study of ketamine and neurotoxicity in the rabbit (LI) [Malinovsky, Lepage, Cozian, Mussini, Pinaud & Souron], 109
- in study of neurologic changes during carotid endarterectomy under cervical block (CI) [Davies, Mooney, Scott, Silbert & Cook], 829
- topical, use of ultrasound to enhance local anesthetic effect of (LI) [Tachibana & Tachibana], 1091
- toxicity to, treated with low-dose propofol (CR) [Bishop & Johnstone], 788
- toxicity
- and anesthetic requirement in diabetes (CO) [deJong], 799
 - and anesthetic requirement in diabetes (CO) [Kalichman & Calcutt], 800
- opioid**
- sufentanil
 - auditory event-related potential during, P3a wave of (CI) [Plourde, Joffe, Villemure & Trahan], 498
 - increased intracranial pressure in head trauma patients (CO) [Sperry], 621
 - increased intracranial pressure in head trauma patients given (CO) [Kofke & Tempelhoff], 620
 - increases intracranial pressure in head trauma patients (CO) [Sperry], 622
 - increases intracranial pressure in head trauma patients (CO) [Weinstabl & Spiss], 622
- topical**
- chlorofluorocarbons
 - atmospheric pollution with (CO) [Johnstone], 395
 - atmospheric pollution with (CO) [Giltinan & Bodkin], 396
 - ethyl chloride
 - atmospheric pollution with (CO) [Johnstone], 395
 - atmospheric pollution with (CO) [Giltinan & Bodkin], 396
- volatile**
- desflurane
 - malignant hyperthermia induced by, in susceptible swine (CI) [Wedel, Gammel, Milde & Iaizzo], 1138
 - risk of ischemia in patients receiving, sample size and clinical significance (CO) [Biddle], 396
 - risk of ischemia in patients receiving, sample size and clinical significance (CO) [Helman, Leung, Bellows & Mangano], 397
 - enflurane
 - attenuate contractile responses to norepinephrine in mesenteric veins of rabbit (LI) [Stadnicka, Flynn, Bosnjak & Kampine], 326
 - continuous intravenous infusion of rocuronium in patients receiving (CI) [Shanks, Fragen & Ling], 649
 - effects of, on intercellular communications mediated by gap junctions between astrocytes in primary care (LI) [Mantz, Cordier & Giaume], 892
 - effects of nifedipine with, on automaticity, conduction, and contractility in isolated guinea pig hearts (CI) [Gallenberg, Stowe, Kampine & Bosnjak], 1112
 - inhibition of baroreflex mediated mesenteric venoconstriction by (LI) [Stadnicka, Stekiel, Bosnjak & Kampine], 928
 - physiologic responses to, during epidural anesthesia and combined epidural/enflurane anesthesia in women (LI) [Lopez, Ozaki, Sessler & Valdes], 1046
 - halothane
 - attenuate contractile responses to norepinephrine in mesenteric veins of rabbit (LI) [Stadnicka, Flynn, Bosnjak & Kampine], 326
 - bronchodilation induced by, assessed by high-resolution computed tomography (LI) [Brown, Mitzner, Zerhouni & Hirshman], 295
 - decreases rate of production of cerebrospinal fluid (LI) [Maktabi, Elboki, Faraci & Todd], 72
 - depression of myocardial contractility by, reversal by calcium (LI) [Pagel, Kampine, Schmeling & Warltier], 141
 - direct actions of, on airway smooth muscle, factors influencing (CI) [Yamamoto, Morimoto, Warner, Rehder & Jones], 1102
 - effect of midazolam on epinephrine arrhythmogenicity in dogs anesthetized with (LI) [Court, Dodman, Greenblatt, Agarwal & Kumar], 155
 - effect of, on pulmonary uptake of propofol in cats (LI) [Matot, Neely, Katz & Neufeld], 1157
 - effects of, on calcium ion concentrations in vascular smooth muscle (LI) [Tsuchida, Namba, Yamakage, Fujita, Notsuki & Namiki], 531
 - effects of, on intercellular communications mediated by gap junctions between astrocytes in primary care (LI) [Mantz, Cordier & Giaume], 892
 - effects of nifedipine with, on automaticity, conduction, and contractility in isolated guinea pig hearts (CI) [Gallenberg, Stowe, Kampine & Bosnjak], 1112
 - and the guanylate cyclase system (CO) [Eskinder], 618
 - and the guanylate cyclase system (CO) [Nakamura, Toda & Hatanjo], 617
 - and hypoxia alter norepinephrine dynamics (LI) [Kamath, Rorie & Tyce], 553
 - imidazoline-preferring receptors and arrhythmias in dogs anesthetized with (LI) [Hayashi, Kamibayashi, Maze, Yamatodani, Sumikawa, Kuro & Yoshiya], 524
 - inhibition of dopamine transport by (LI) [El-Maghrabi & Eckenhoff], 750
 - inhibits stimulation of natural killer cells by interferon (LI) [Markovic, Knight & Murasko], 700
 - low concentrations of in comparative study of bronchodilators (CI) [Brown, Zerhouri & Hirshman], 1096
 - malignant hyperthermia induced by, in susceptible swine (CI) [Wedel, Gammel, Milde & Iaizzo], 1138
 - during right coronary insufficiency (LI) [Priebe], 541
 - in study of anesthesia-induced immunosuppression and interferons (EV) [Clark], 627
- isoflurane**
- attenuate contractile responses to norepinephrine in mesenteric veins of rabbit (LI) [Stadnicka, Flynn, Bosnjak & Kampine], 326
 - does not block post-injury facilitation, but morphine does (LI) [Abram & Yaksh], 713
 - in comparative trial of three anesthetics for elective supratentorial craniotomy (CI) [Todd, Warner, Sokoll, Maktabi, Hindman, Scamman & Kirschner], 1005
 - contamination of, in vaporizer (CR) [Lippmann, Foran, Ginsburg & Lewis], 1175
 - continuous intravenous infusion of rocuronium in patients receiving (CI) [Shanks, Fragen & Ling], 649
 - depression of myocardial contractility by, reversal by calcium (LI) [Pagel, Kampine, Schmeling & Warltier], 141

- direct actions of, on airway smooth muscle, factors influencing (CI) [Yamamoto, Morimoto, Warner, Rehder & Jones], 1102
- effects of, on calcium ion concentrations in vascular smooth muscle (LI) [Tsuchida, Namba, Yamakage, Fujita, Notsuki & Namiki], 531
- effects of, on intercellular communications mediated by gap junctions between astrocytes in primary cere (LI) [Mantz, Cordier & Giaume], 892
- effects of nifedipine with, on automaticity, conduction, and contractility in isolated guinea pig hearts (CI) [Gallenberg, Stowe, Kampine & Bosnjak], 1112
- hemodynamic variables and catecholamine levels influenced by (CI) [Yli-Hankala, Randell, Seppälä & Lindgren], 266
- hypocapnia-induced cerebral blood flow redistribution with, during middle cerebral artery occlusion () [Ruta, Drummond & Cole], 134
- inhibition of dopamine transport by (LI) [El-Maghrabi & Eckenhoff], 750
- inhibits stimulation of natural killer cells by interferon (LI) [Markovic, Knight & Murasko], 700
- leg heat content continues to decrease during core temperature plateau during anesthesia with (CI) [Belani, Sessler, Sessler, Schroeder, McGuire, Merrifield, Washington & Moayeri], 856
- low concentrations of in comparative study of bronchodilators (CI) [Brown, Zerhouri & Hirshman], 1096
- malignant hyperthermia induced by, in susceptible swine (CI) [Wedel, Gammel, Milde & Iazzo], 1138
- minimum alveolar concentration, reduction by fentanyl (CI) [McEwan, Smith, Dyar, Goodman, Smith & Glass], 864
- modulation of GABA_A receptor complex by (RA) [Tanelian, Kosek, Mody & MacIver], 757
- requirements at 20°C, hypothermia eliminates (LI) [Antognini], 1152
- in study of anesthesia-induced immunosuppression and interferons (EV) [Clark], 627
- study of, concluding that anesthetic potency is independent of forebrain structures (LI) [Rampil, Mason & Singh], 707
- subanesthetic and ventilatory response to hypoxemia (CO) [Knill], 1189
- subanesthetic and ventilatory response to hypoxemia (CO) [Temp, Henson & Ward], 1190
- subendocardial flow during, and transmural function (LI) [Wilton, Knight, Ullrich, Martin & Gallagher], 510
- tolerance to, during prolonged administration (CR) [Arnold, Truog & Molengraft], 985

during cardiac surgery, intraoperative somatosensory evoked potential monitoring predicts (CI) [Hickey, Gugino, Aglio, Mark, Son & Maddi], 29

bradycardia

following propofol administration in pregnant ewe (LI) [Alon, Ball, Gillie, Parer, Rosen & Shnider], 562

cauda equina syndrome

and continuous spinal anesthesia (CO) [Drasner], 215
and continuous spinal anesthesia (CO) [Peyton], 214
gadolinium-enhanced magnetic resonance imaging and autopsy findings in patient with (CR) [Mangar, Gonzalez & Linden], 785

central nervous system**toxicity**

caused by lidocaine, treated with low-dose propofol (CR) [Bishop & Johnstone], 788

contamination

of anesthetic vaporizer contents (CR) [Lippmann, Foran, Ginsburg & Lewis], 1175

diabetes mellitus**long-standing**

neurologic assessment in, before epidural anesthesia (CO) [Vasdev & Leicht], 1188

difficult intubation

laryngeal mask airway and (CO) [Benumof], 997

laryngeal mask airway and (CO) [Maltby & Neil], 996

endobronchial intubation

left, by laryngectomy tube (CO) [Baraka, Jabbour, Rizkallah], 997

explosion hazards

in laparoscopy, with nitrous oxide (CI) [Neuman, Sidebotham, Negoianu, Bernstein, Kopman, Hicks, West & Haring], 875

Freeman-Sheldon syndrome

anesthesia for children with (CO) [Jones & Dolcourt], 408

anesthesia for children with (CO) [Mayhew], 408

gas flow leak

potential, through Dräger Vapor 19.1 vaporizer with key-index fill port (CO) [Brennan], 212

potential, through Dräger Vapor 19.1 vaporizer with key-index fill port (CO) [Meister & Becker], 211

gastric distention

prevention of, effect of cricoid pressure on, in infants and children (CI) [Moynihan, Brock-Utne, Archer, Feld & Kreitzman], 652

headache**postlumbar puncture**

after fluoroscopically guided lumbar paravertebral sympathetic block (CR) [Schmidt & Gibbons], 198

heart block

after methylmethacrylate cementing (CO) [Hantler & Learned], 999

after methylmethacrylate cementing (CO) [Mirenda & Broyles], 998

hematoma**epidural**

associated with epidural anesthesia: complications of anticoagulant therapy (CO) [Vasdev & Leicht], 1188

hiccups**intractable**

postoperative, cervical epidural block can relieve (CR) [Sato, Asakura, Endo & Naito], 1184

hip dislocation

perioperative, in patient with prosthetic hip (CO) [Samuels & Brent], 398

hypoxemia**intraoperative**

and patient improvement with use of pulse oximetry randomized evaluation in 20,802 patients (CI) [Moller, Johannesen, Espersen, Ravlo, Pedersen, Jensen, Rasmussen, Rasmussen, Pedersen, Cooper, Gravenstein, Chraemmer-Jørgensen, Djernes, Wiberg-Jørgensen, Heslet & Johansen], 445

- and quest for meaningful outcomes (EV) [Orkin, Cohen & Duncan], 417

- as supplement to propofol or nitrous oxide for lower abdominal surgery in female patients (LI) [Vuyk, Lim, Engbers, Burm, Vletter & Bovill], 1036

anesthetics or analgesics

- and effects of cryogenic brain injury on nociception (LI) [Archer & Samanani], 937

nitrous oxide

- supplemented by alfentanil, for lower abdominal surgery in female patients (LI) [Vuyk, Lim, Engbers, Burm, Vletter & Bovill], 1036

propofol

- of epidurally administered clonidine (CI) [Eisenach, Detweiler & Hood], 277
- and free drug concentrations (CO) [Gin], 604
- and free drug concentrations (CO) [Vuyk, Engbers, Lemmens, Burm, Vletter, Gladines & Bovill], 604
- supplemented by alfentanil, for lower abdominal surgery in female patients (LI) [Vuyk, Lim, Engbers, Burm, Vletter & Bovill], 1036
- of total intravenous anesthesia, prevention of awareness during (CO) [Glass], 399

Pharmacokinetics**linear systems**

- for maintaining constant levels of intravenous drugs (LI) [Bailey], 116

propofol

- in obese patients (CI) [Servin, Farinotti, Haberer & Desmonts], 657

sufentanil

- disposition (CI) [Bartkowski, Goldberg, Huffnagle & Epstein], 260

transdermal fentanyl

- for cancer pain (CI) [Portenoy, Southam, Gupta, Lapin, Layman, Inturrisi & Foley], 36

uptake

- of computer-controlled infusion of intravenous dexmedetomidine in adult human volunteers (CI) [Dyck, Maze, Haack, Azarnoff, Vuorilehto & Shafer], 821
- of intravenous and intramuscular dexmedetomidine, in adult human volunteers (CI) [Dyck, Maze, Haack, Vuorilehto & Shafer], 813
- of propofol in cats (LI) [Matot, Neely, Katz & Neufeld], 1157
- of total intravenous anesthesia, prevention of awareness during (CO) [Glass], 399

Pharmacology**amrinone**

- and pulmonary vascular pressure-flow relationship in dogs following left lung autotransplantation (LI) [Nyhan, Pribble, Peterson, Nishiwaki, Trempey, Desai, Rock & Murray], 1166

bipyridine compounds

- and pulmonary vascular pressure-flow relationship in dogs following left lung autotransplantation (LI) [Nyhan, Pribble, Peterson, Nishiwaki, Trempey, Desai, Rock & Murray], 1166

caffeine

- for management of postdural puncture headache (CR) [Schmidt & Gibbons], 198

caffeine sensitivity

- in skinned muscle fibers in malignant hyperthermia (LI) [Adnet, Bromberg, Haudecoeur, Krivosic, Adamantidis, Reyford, Bello & Horber], 168

erythromycin

- is sufentanil disposition affected by? (CI) [Bartkowski, Goldberg, Huffnagle & Epstein], 260

ethanol

- modulation of GABA_A receptor complex by (RA) [Tanelian, Kossek, Mody & MacIver], 757

interferons

- interferon α/β
 - in prevention of anesthesia-induced immunosuppression (EV) [Clark], 627
 - stimulation of natural killer cells by, volatile anesthetics inhibit (LI) [Markovic, Knight & Murasko], 700

ketorolac

- for pain control for postthoracotomy patients (CR) [Burgess, Anderson, Colonna, Sborov & Cavanaugh], 365

muscimol

- intracerebroventricular, effect of, on intravenous bupivacaine toxicity (LI) [Bernards & Artru], 902

nitric oxide

- inhaled (EV) [Pearl], 413
- inhaled, reduced pulmonary hypertension after cardiac surgery in infant (CR) [Selldén, Winberg, Gustafsson, Lundell, Böök & Frostell], 577
- inhaled, reverses hypoxic pulmonary vasoconstriction (CI) [Frostell, Blomqvist, Hedenstierna, Lundberg & Zapol], 427

nitroglycerin

- is it a myocardial depressant? (CO) [Cahalan & Balea], 995
- is it a myocardial depressant? (CO) [Lee, Xie & Fan], 994

- nitroprusside**
 in study of cardiac effects of nitroglycerin (CO) [Cahalan & Balca], 995
 in study of cardiac effects of nitroglycerin (CO) [Lee, Xie & Fan], 994

Surgery**abdominal**

diaphragmatic electrical activity after, effects of thoracic extradural block on (CI) [Pansard, Mankikian, Bertrand, Kieffer, Ciergue & Viars], 63

postoperative pulmonary complications and (HI) (CI) [Jayr, Thomas, Rey, Farhat, Lasser & Bourgain], 666

ambulatory

ketorolac for postoperative analgesia following (CI) [Wong, Carpenter, Kopacz, Fragen, Thompson, Maneatis & Bynum], 6

cardiac**cardiopulmonary**

electroencephalographic monitoring during (CO) [Edmonds, Slater & Shields], 208

hypothermia eliminates isoflurane requirements at 20°C during (LI) [Antognini], 1152

cardiopulmonary bypass

quantitative electroencephalographic monitoring during (CO) [Bashein], 210

quantitative electroencephalographic monitoring during (CO) [Chabot & Gugino], 209

quantitative electroencephalographic monitoring during (CO) [Levy], 211

coronary artery bypass graft

effect of phenylephrine on left ventricular function during (CI) [Goertz, Lindner, Seefelder, Schirmer, Beyer & Georgieff], 834

coronary artery bypass grafting

and pressure rate quotient evaluation by echocardiography (CI) [Harris, Gordon, Urban, O'Connor & Barash], 242

coronary artery bypass surgery

management of patient with von Willebrand's disease during (CR) [Slaughter, Mody, Oldham, Reves, O'Connor, Parker & Greenberg], 195

infant

inhaled nitric oxide reduced pulmonary hypertension after (CR) [Seldén, Winberg, Gustafsson, Lundell, Böök & Frostell], 577

sufentanil anesthesia for, auditory event-related potential reveals pitch change during (CI) [Plourde, Joffe, Villemure & Trahan], 498

cardiovascular**extracorporeal circulation**

to restore coronary perfusion, to resuscitate heart after untreated cardiac arrest (LI) [Maldonado, Weil, Tang, Bisera, Gazmuri, Johnson & D'Alessio], 343

chronic instrumentation**lung**

amrinone and pulmonary vascular pressure-flow relationship following (LI) [Nyhan, Pribble, Peterson, Nishiwaki, Trempey, Desai, Rock & Murray], 1166

craniotomy

- elective supratentorial
- prospective, comparative trial of three anesthetics for (CI) [Todd, Warner, Sokoll, Maktabi, Hindman, Scamman & Kirschner], 1005

laparoscopy

- explosion hazards with nitrous oxide (CI) [Neuman, Sidebotham, Negoianu, Bernstein, Kopman, Hicks, West & Har- ing], 875
- nausea and vomiting after, menstruation increases risk of (CI) [Beattie, Lindblad, Buckley & Forrest], 272

lung

- transplantation
 - amrinone and pulmonary vascular pressure-flow relationship following (LI) [Nyhan, Pribble, Peterson, Nishiwaki, Trempy, Desai, Rock & Murray], 1166
 - deliberate hypoventilation in patient with air trapping during (CR) [Quinlan & Buffington], 1177

neurosurgery

- pediatric, new method of endotracheal tube fixation for (CO) [Horn & Stevenson], 618

orthopedic

- bone cement
 - methylmethacrylate, heart block after (CO) [Hantler & Learned], 999
 - methylmethacrylate, heart block after (CO) [Mirenda & Broyles], 998

stress

- response to, following thoracic epidural anesthesia (CO) [Keh- let], 790
- response to, following thoracic epidural anesthesia (CO) [Naito & Tamai], 791
- response to, following thoracic epidural anesthesia (CO) [Walker & Herschman], 790

thoracic aorta

- cross-clamping with esmolol or sodium nitroprusside spinal cord perfusion pressure in dogs after (LI) [Ryan, Mannion, O'Brien, Grace, Bouchier-Hayes & Cunningham], 317

thoracoscopy

- laser ablation, of bullous emphysema, anesthesia for (CI) [Barker, Clarke, Trivedi, Hyatt, Fynes & Roessler], 44

total hip arthroplasty

- methylmethacrylate cementing in, heart block after (CO) [Hantler & Learned], 999
- methylmethacrylate cementing in, heart block after (CO) [Mirenda & Broyles], 998

urologic

- prostatectomy
 - fentanyl patient-controlled epidural analgesia for, ketorolac as adjuvant to (CI) [Grass, Sakima, Valley, Fischer, Jackson, Walsh & Bourke], 642
- radical retropubic prostatectomy
 - ketorolac as adjuvant to fentanyl patient-controlled epidural analgesia after (HI) (CI) [Grass, Sakima, Valley, Fischer, Jackson, Walsh & Bourke], 642

vascular

- carotid endarterectomy
 - neurologic changes during, under cervical block, predict postoperative stroke (CI) [Davies, Mooney, Scott, Silbert & Cook], 829

vasectomy

- intraoperative somatosensory evoked potential monitoring pre- dictors brachial plexus injury during (CI) [Hickey, Gugino, Aglio, Mark, Son & Maddi], 29
- protamine-specific IgG antibody associated with anaphylaxis following (CR) [Adourian, Shampaine, Hirshman, Fuchs & Adkinson], 368

Sweating, See under Temperature, regulation**Swine, See under Animals****Sympathetic blockade, See under Anesthetic techniques, re- gional****Sympathetic nervous system****alpha adrenergic agonists**

- effect of, on left ventricular function in coronary artery disease or valvular aortic stenosis (CI) [Goertz, Lindner, Seefelder, Schirmer, Beyer & Georgieff], 834

baroreceptor reflex

- mesenteric venoconstriction, inhibition by enflurane (LI) [Stad- nicka, Stekiel, Bosnjak & Kampine], 928

beta-adrenergic antagonist

- esmolol
 - in thoracic aortic cross-clamping, spinal cord perfusion pres- sure in dogs after (LI) [Ryan, Mannion, O'Brien, Grace, Bouchier-Hayes & Cunningham], 317

catecholamines

- epinephrine
 - and arrhythmias in halothane-anesthetized dogs (LI) [Hayashi, Kamibayashi, Maze, Yamatodani, Sumikawa, Kuro & Yoshiya], 524
 - arrhythmogenicity in dogs anesthetized with halothane, ef- fect of midazolam and flumazenil on (LI) [Court, Dodman, Greenblatt, Agarwal & Kumar], 155
 - to augment cyclical flow reductions, in study of droperidol and coronary thrombosis (LI) [Bertha, Sill, Berger, Folts & Milde], 733
 - effects of addition of, to intrathecal sufentanil for labor anal- gesia (HI) (CI) [Camann, Minzter, Denney & Datta], 870
 - enhances glucose-related ischemic injury in rat (CI) [Shu, Hoffman, Thomas & Albrecht], 1120
 - increases in, after rapid increase in isoflurane concentration (CI) [Yli-Hankala, Randell, Seppälä & Lindgren], 266
- norepinephrine
 - altered release and metabolism of, in presence of halothane and hypoxia (LI) [Kamath, Rorie & Tyce], 553
 - contractile responses to, enflurane, halothane, and isoflur- ane, attenuate, in isolated mesenteric veins (LI) [Stadnicka, Flynn, Bosnjak & Kampine], 326
 - enhances glucose-related ischemic injury in rat (CI) [Shu, Hoffman, Thomas & Albrecht], 1120
 - increases in, after rapid increase in isoflurane concentration (CI) [Yli-Hankala, Randell, Seppälä & Lindgren], 266
 - inhibitory effects of bupivacaine and lidocaine on (LI) [Szo- cik, Gardner & Webb], 911
- tyramine
 - inhibitory effects of bupivacaine and lidocaine on (LI) [Szo- cik, Gardner & Webb], 911

dopamine

- transport, anesthetic inhibition of (LI) [El-Maghrabi & Ecken- hoff], 750

mesenteric venoconstriction

- baroreflex mediated, inhibition by enflurane (LI) [Stadnicka, Stekiel, Bosnjak & Kampine], 928
- epidural clonidine depresses by supraspinal mechanism (LI) [Kirio, Lundin & Elam], 1021

 α_2 agonists

- clonidine
 - effects of, on intercellular communications mediated by gap junctions between astrocytes in primary care (LI) [Mantz, Cordier & Giaume], 892
- dexmedetomidine
 - intravenous, computer-controlled infusion of, in adult human volunteers (CI) [Dyck, Maze, Haack, Azarnoff, Vuorilehto & Shafer], 821
 - intravenous and intramuscular, pharmacokinetics and hemodynamic effects of (CI) [Dyck, Maze, Haack, Vuorilehto & Shafer], 813

 α_2 -adrenergic agonist

- clonidine
 - epidurally administered, hemodynamic and analgesic actions of (CI) [Eisenach, Derweiler & Hood], 277
 - hypotension induced by, neostigmine counteracts (LI) [Williams, Tong & Eisenach], 301
- dexmedetomidine
 - intramuscular, as premedication for general anesthesia (LI) [Scheinin, Jaakola, Sjövall, Ali-Melkkilä, Kaukinen, Turunen & Kanto], 1065
 - pharmacology of (CO) [Burney], 801
 - pharmacology of (CO) [Jones], 801

 α_2 -antagonist

- atipamezole
 - and arrhythmias in halothane-anesthetized dogs (LI) [Hayashi, Kamibayashi, Maze, Yamatodani, Sumikawa, Kuro & Yoshiya], 524
- L-659,066
 - and arrhythmias in halothane-anesthetized dogs (LI) [Hayashi, Kamibayashi, Maze, Yamatodani, Sumikawa, Kuro & Yoshiya], 524

 α -adrenergic agents

- modulation of GABA_A receptor complex by (RA) [Tanelian, Kossek, Mody & MacIver], 757

 β -adrenergic blockade

- for mediation of anaphylactic reaction to topical bovine thrombin (CR) [Rothenberg & Moy], 779

Sympathoadrenal response, See under Intubation, tracheal

Synaptosomes, See under Brain

Syringe swap, See under Complications

Systemic hemodynamics, See under Heart

T

Tachycardia, See under Complications; Heart

Tail-flick latency, See under Measurement techniques

Tail-flick response, See under Measurement techniques

Temperature**heat****leg**

- and core temperature plateau in humans anesthetized with isoflurane (CI) [Belani, Sessler, Sessler, Schroeder, McGuire, Merrifield, Washington & Moayeri], 856

measurement

- thermal flux transducers (LI) [Sessler, Sessler, Hudson & Moayeri], 1055

heat loss**evaporation**

- during surgical skin preparation (LI) [Sessler, Sessler, Hudson & Moayeri], 1055

radiation

- during surgical skin preparation (LI) [Sessler, Sessler, Hudson & Moayeri], 1055

hypothermia**complications**

- is associated with postoperative myocardial ischemia (CI) [Frank, Beattie, Christopherson, Norris, Perler, Williams & Gottlieb], 468

perioperative

- is associated with postoperative myocardial ischemia (CI) [Frank, Beattie, Christopherson, Norris, Perler, Williams & Gottlieb], 468

measurement**esophageal**

- and core temperature plateau in humans anesthetized with isoflurane (CI) [Belani, Sessler, Sessler, Schroeder, McGuire, Merrifield, Washington & Moayeri], 856

esophagus

- during epidural anesthesia and combined epidural/enflurane anesthesia in women (LI) [Lopez, Ozaki, Sessler & Valdes], 1046

skin

- and core temperature plateau in humans anesthetized with isoflurane (CI) [Belani, Sessler, Sessler, Schroeder, McGuire, Merrifield, Washington & Moayeri], 856
- during epidural anesthesia and combined epidural/enflurane anesthesia in women (LI) [Lopez, Ozaki, Sessler & Valdes], 1046
- to measure heat loss during surgical skin preparation (LI) [Sessler, Sessler, Hudson & Moayeri], 1055

tympanic membrane

- during epidural anesthesia and combined epidural/enflurane anesthesia in women (LI) [Lopez, Ozaki, Sessler & Valdes], 1046

regulation**setpoint**

- and core temperature plateau in humans anesthetized with isoflurane (CI) [Belani, Sessler, Sessler, Schroeder, McGuire, Merrifield, Washington & Moayeri], 856
- during epidural anesthesia and combined epidural/enflurane anesthesia in women (LI) [Lopez, Ozaki, Sessler & Valdes], 1046

sweating

- during epidural anesthesia and combined epidural/enflurane anesthesia in women (LI) [Lopez, Ozaki, Sessler & Valdes], 1046

threshold

- and core temperature plateau in humans anesthetized with isoflurane (CI) [Belani, Sessler, Sessler, Schroeder, McGuire, Merrifield, Washington & Moayeri], 856
- during epidural anesthesia and combined epidural/enflurane anesthesia in women (LI) [Lopez, Ozaki, Sessler & Valdes], 1046

- vasoconstriction
 - to assess leg heat content during core temperature plateau in humans anesthetized with isoflurane (CI) [Belani, Sessler, Sessler, Schroeder, McGuire, Merrifield, Washington & Moayeri], 856
 - vasodilation
 - during epidural anesthesia and combined epidural/enflurane anesthesia in women (LI) [Lopez, Ozaki, Sessler & Valdes], 1046
 - thermoregulation
 - and core temperature plateau in humans anesthetized with isoflurane (CI) [Belani, Sessler, Sessler, Schroeder, McGuire, Merrifield, Washington & Moayeri], 856
 - during epidural anesthesia and combined epidural/enflurane anesthesia in women (LI) [Lopez, Ozaki, Sessler & Valdes], 1046
